COURSEWORK

UNDERGRADUATE
Programming Fundamentals
Technical Support Fundamentals
Data Structure and Algorithm
Object Oriented Programming
Digital System Design
Analog Electronics
Engineering Mathematics.
Communication System.
Microprocessors.

SKILLS

PROGRAMMING
Languages:
- C++
- TypeScript
- JavaScript
- Python

Others:
- ReactJs • Angular
- NodeJs • MongoDB
- PostgreSQL • REST API
- NextJs • TRPC

Tools:
- Git • Figma
- Postman • Nginx
- Docker

EXPERIENCE

FRONTEND DEVELOPER INTERN | CyberSpark
Dec 2023 - Feb 2024

FREELANCER | Upwork
August 2023 – Present

PROJECTS

Bitgram (Social Media App)
Project link
A full stack web app made using MERN Stack with all the major social media features.

Algorithm Visualizer
Project link
Web-app using which you can visualize different algorithms like binary search, sorting algorithms etc.

BitTube - YouTube Clone
Project link
BitTube is a YouTube clone made using react and rapid-API. I have also used Material UI 5 as a component library.

Cryptoverse
Project link
Web-app made using ReactJS from where you can get all the necessary details regarding any crypto-currency. I have also used Ant Design as the UI library for this project.
